**Notice**

**Technical Training in STAAD Pro**

We are pleased to announce a comprehensive technical training program in STAAD Pro, a widely used software for structural analysis and design. This training aims to enhance your knowledge and practical skills in the field of structural engineering. Details of the program are as follows:

Duration: 15 Days

Dates: [13/02/2023] to [1/03/2023]

Venue: Auto Cad Lab Civil Department

**Training Objectives:**

- Gain proficiency in using STAAD Pro for structural analysis and design.
- Understand the fundamental concepts of structural engineering.
- Develop practical skills in modeling, analysis, and design of structures using STAAD Pro.
- Learn to interpret and analyze the results obtained from structural analysis.
- Apply the acquired knowledge to solve real-world structural engineering problems.

**Registration:**

To participate in the training program, interested 3rd year students are required to register their names to Mr. Tauseef Raza Limited seats are available, so early registration is encouraged. Please visit the Department Office to complete the registration process.

Prerequisites:

- Basic knowledge of structural engineering concepts.
- Familiarity with computer usage and software applications.

**Certification:**

Participants who successfully complete the training program will be awarded a certificate of completion, acknowledging their dedication and skills gained during the training.

Please note that attendance during the entire training program is mandatory. Absence without valid reasons may affect your eligibility for the certification.

For any further inquiries or clarifications, please contact Prof. Mohd Azaz at [9860770726].

We look forward to your active participation in this technical training program to enhance your skills in STAAD Pro and strengthen your foundation in structural engineering.

## REPORT

The Bridge Course was conducted on AUTO CAD which will help the students for designing and development of product through computer. This course is value added course. It is one of the types of skill development of students so that in future they will get benefited for job and R & D sector. This course is conducted for the students of 5<sup>th</sup> & 7<sup>th</sup> semester students 19 students attended the Course.

DEPARTMENT OF SCIENCE & HUMANITIES

REPORT

Department of Science and Humanities of Anjuman College of Engineering and Technology (ACET), organised the Soft Skills Training **THE CORPORATE CONNECT**, a unique employability Skills enhancing program of forty hours from 21<sup>st</sup> May 2023 with the goal of giving students skills that go beyond what they learn in institute in association with Life Smith India. The complete program focused on things like effective communication, leadership, teamwork, time management, emotional intelligence, interview techniques and other important skills that are needed to succeed in today's fast-paced workplace. Sixty nine students actively participated in the training.

During the program, participants took part in a number of hands-on workshops, practical exercises, group games, and simulations of real-life situations. Well-known experienced trainers from Life Smith India Mr. B. K Khwaja Sajid and Mr. Mir Tarique Ali shared their knowledge with the eager learners, giving them useful insights and advice.

The college celebrated the end of its intensive Soft Skills Training Programme with a big ceremony on 31<sup>st</sup> May 2023. The event marked the end of a successful training programme that was meant to help the students who took part to grow professionally and personally.

In the Valedictory program, Dr. S.M. Ali, Principal of ACET, expressed his view about how important soft skills are in today's job market, which is very competitive, and he has also motivated the students to use their new information and skills in their future work.

Dr. Tasneem Khan, Head of Science and Humanities Department thanked all the trainers, students, and staff who helped supported in conducting the successful Soft Skills Training Program. She expressed that ACET is always committed to giving students well-formed education that gives them the skills they need to do well in their chosen fields.

The students who took part were thankful for the chance to improve their soft skills, few participants have shared their experience about training program. The Valedictory function was compared by Dr. Ambareen Sheikh. Dr. A.Sajid Kazi and Prof. Shama Khan coordinated the training program.

Useful

Yes its very useful

The fact that the course was not too in depth and technical yet was informative enough to make students understand and build something useful in the real-world.

All were important and useful so that we can go ahead.

We getting trainings in your college only .It is most useful in computer science branch

Basics of html, php, etc.

Ask the faculty of the course to provide notes on Whatsapp, as the course was fast paced and not enough time was given for written work.

By doing daily practice.

By practicing it more.

Practicing more

No idea

I would do some projects like building a e-commerce website.

It was just a basic course where we come to know about the basics of every language. It can be well organised if the instructor could give us the deep knowledge of everything that how the things are working rather than showing just examples. It was not at all an interactive session.

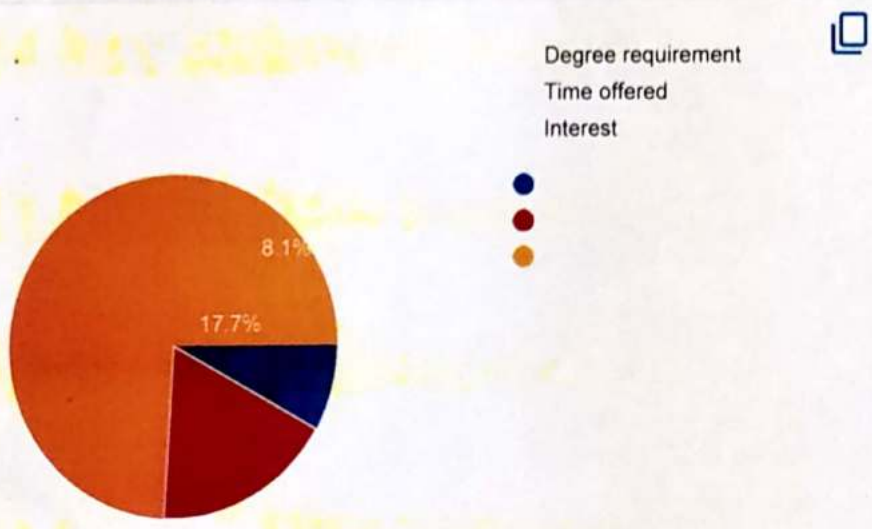

By practicing this course regularly

## Department of Electrical Engineering

### Notice: PLC & SCADA Technical Training for Electrical Engineering Students

Dear Electrical Engineering Students,

We are pleased to announce an exciting opportunity for you to enhance your practical skills and broaden your knowledge in the field of electrical engineering. Electrical Engineering Department is organizing a comprehensive training program on Programmable Logic Controllers (PLC) and Supervisory Control and Data Acquisition (SCADA) systems. PLC and SCADA systems are widely used in various industries for process automation and control. Mastering these technologies will equip you with valuable expertise and open doors to exciting career prospects in the electrical engineering field.

Details of the training session are as follows:

Date: 13<sup>th</sup> of February, 2023 Till 28<sup>th</sup> of February, 2023

Time: 8:00 am to 10:00 am

Venue: Computer Lab Electrical Engineering Department

Key Topics to be Covered:

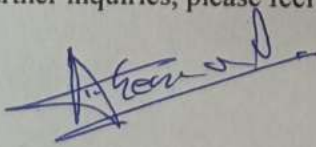

- Introduction to PLC and SCADA systems
- PLC programming and ladder logic
- SCADA system architecture and components
- Data acquisition and control techniques
- HMI ( Human- Machine Interface) design and development
- Communication protocols for industrial automation
- Troubleshooting and maintenance of PLC and SCADA system

Training session will be conducted by experienced professionals from the industry who have extensive knowledge of PLC and SCADA system and its applications in Electrical engineering projects. It will be a hands-on workshop, allowing you to practice your skills and receive personalized guidance from the instructors.

Participation in this training session is highly encouraged as it will provide you with a competitive edge in the job market and equip you with the necessary skills to excel in your future electrical engineering endeavors.

We look forward to your active participation and believe that this training will significantly contribute to your academic and professional growth.

For any further inquiries, please feel free to contact: Prof. Akil Ahemad Assistant Professor.
