Respected Sir,

Please refer our discussions on the above and we propose an innovative ACTION PACKED / PRACTICAL PROGRAM for 1st year engineering students of your esteemed and reputed institution (ACET)

It's a MUST for the future Engineers and Technocrats to innovate and CRAFT their CAREER.

The ResearchData throws the frightening figures for engineers who have acquired the hard skills but lack the soft skills and essentials to get through to the CORPORATE. They can be called GRADUATE ENGINEERS But NOT employable.

Just 6.5% – 7% employability rate

29 lacs Student joining the program every year

16 lacs students added up to theJOB SEEKERS / UNEMPLOYED ENGINEERS, every year

Source : National Employability Report ENGINEERS, ANNUAL REPORT 16 (Ministry of Human Resource Development)

Life Smith India offers a research based scientific yet innovative approach to address employability of Engineering Graduates at the right time so that the students when they come out with hard skills on their side, they also acquire the SOFT SKILLS to ENHANCE the chances of getting a JOB.

Before writing a letter . . .

Read (1) the letter or letters to which you need or want to respond; or (2) read a written announcement or article motivating or requesting a letter response.
(News stories, displays and billboards, and even oral comments that others have voiced may spark your passion to write a letter. Listening, is therefore important to letter writers.)

Examine the tone (language) of the letter, announcement or other printed material to which you will respond. The tone of the motivating piece helps you determine the tone of your written response (formal or informal).

Identify your audience and purpose in order to determine the type of letter you will write (formal or informal).

LETTER MECHANICS —

1. Pronoun (Point of View)

The use of personal pronouns is important in letters . . . I, he, she, it, we, they, you

In a letter, do not refer to yourself in the third person by using one or the writer.

It is perfectly natural and appropriate to refer to yourself as I and to the reader as you.

The Principal

Greetings from GlobalHunt Foundation.

I would like to take this opportunity in introducing GlobalHunt Foundation (www.globalhuntfoundation.org) a section 8, not-for-profit, registered under The Indian Companies Act 1956. Carrying forward the CSR mandate of one of our corporate client Unicharm India we would like to conduct 45 minutes menstrual hygiene training for girls of your respective school/college. The session will be conducted by our corporate partner, Unicharm India, a leading Japanese firm in India, existing in the market with the names of Sofy and Mamypoko pants.

For past 5 years under the CSR initiatives the company have been undertaking menstrual hygiene among school girls across Bangalore, Delhi, Indore, Jaipur, Jharkhand, Kolkata, Lucknow, Nasik, Nagpur, Pune & Shimoga so as to build the knowledge of girls on the subject of menstruation.

The session entails a comprehensive understanding on the what, why and how of menstruation comprising of meaning of menstruation, develop a biological understanding, talk on related social taboos and aware them on hygiene practices to be maintained during menstruation. Given the uncertainties of the current time we suggest if through virtual conferencing mode the session can be taken for girls.

In this respect we seek your kind availability of date and time where the Unicharm team can conduct the knowledge session with the school girls. Please note we do not charge anything from the school or college for the session.
