Managed By Anjuman Hami-E-Islam, Nagpur

ACADEMIC SESSION 2021-2022

Best Practice 1

1. Title of the Practice: -

Internships are the bridge between academia and the professional world. They provide students with an opportunity to gain professional skills that will enhance marketability upon graduation from college. It incorporates education and professional development and is designed to guide the intern toward a professional career in a particular organization, field, or sector.

2. Objectives of the Practice: -

- Explore career alternatives prior to graduation.
- Integrate theory with practical knowledge
- Assess interests and abilities in their field of study.
- Develop communication, interpersonal, other critical skills in the job and interview process.
- Acquire employment contacts leading directly to a full-time job, following graduation from college.

3. The Context: -

An internship is a much focused activity to work in an environment to obtain learning outcomes within their curriculum. During the internship, the knowledge, skills and attitudes learned in the program can be applied. Before going on the internship, two important factors guiding student's development are taken into account:

1. To connect both theoretical and practical knowledge on specific subject with actual work experience and learn new ones;
2. Apply and analyze at least one future skill in area of their choice.

4. The Practice: -

1. Institute and its concerned departments circulate notices (from AICTE, etc.) to the students for acquiring internship, professional practices of relevant to technical subject and motivates the students to apply such training and learning environment according to subject area, content and project work.
2. Prepare list of students for internships depending on required functional knowledge and soft skills and encourages interns to be proactive, positive team players during internships.
3. Students also believe that internships are more valuable than their regular courses and are helpful in shaping their future career path and improving their job opportunities.
4. Students actively participate in the internship training and submit the certificate to concern department after completing internship.

ACADEMIC SESSION 2021-2022

Best practice 2

1. Title of the Practice: -

Massive Open Online Courses (MOOCs) Certification Courses (such as NPTEL, SWAYAM, Coursera, Udemy, etc.) constitute one of the most innovative movements within open learning. These certificate courses constantly keep students evolving with new learning opportunities in higher education and to be in touch with current trends.

2. Objectives of the Practice: -

- To enable students, gain advanced technological and subject knowledge through video lectures prepared by IITs, IISc and IIMs.
- To promote continuous professional development through self-learning and life-long learning.
- To impart life skills, develop the personality and communication skills.
- To motivate the students for joining the courses beyond curriculum or to join the interdisciplinary course of their interest.

3. The Context: -

MOOC courses offers open online courses along with certification in various Engineering Disciplines, Sciences, Humanities, Management and Research which provide relevant exposure to tools and technologies. This facilitates flexibility for the students to prioritize the time at their own pace and comfort. In order to gain in-depth knowledge and mastery learning of various components of the curriculum, the students can opt for courses from the same or interdisciplinary courses. The modular structure of these courses is learner friendly and enables participants to move smoothly along the spiral of learning.

4. The Practice: -

1. With the commencement of academic session, students were informed about the various online certification courses available. They are then motivated to register on the platform and enroll in the course of their choice.
2. Once they enroll themselves, they receive course material which they have to go through and after stipulated time, they have to submit the assignments.
3. On successful submission of all the assignments and Online Exams, the respective organization issues the certificate of completion of the course.

Best practice 3

1. Title of the Practice: -

Faculty Development Programs under National Institute of Technical Teachers Training and Research (NITTR) and AICTE Training and Learning (ATAL) Academy for knowledge up-gradation for faculties to improve teaching learning process.

2. Objectives of the Practice: -

- To facilitate up-gradation of knowledge, enhance teaching and different skills of the faculty.
- To make them aware about modern technology, teaching tools and methodologies. It provides an opportunity to acquire knowledge about current technological developments in relevant fields.
- To encourage faculty members to develop and incorporate research based insight into their teaching.
- To motivate faculty members to develop contents and innovative teaching learning methodologies with student centric approach.

3. The Context: -

To cover areas like technical education policy, new ideas, strategies and techniques, theory and skills development and up gradation of pedagogy instructional technology, motivation, communication skills, management and alternative relevant problems to stay pace with the dynamical state of affairs in Technical Education. It will not only promote the professional practices relevant to technical education but also motivates the faculty to achieve competitive teaching and learning environment, thus channelizing development with respect to academic qualifications and personal matters.

4. The Practice: -

1. To promote the professional practices relevant to technical education.
2. To motivates the faculty to attain competitive teaching and learning environmentthus channelizing development with regard to academic qualifications and personal matters.
3. 5Faculty Development Programme (FDP) aims at equipping teachers with skills and knowledge that are essential for inculcating entrepreneurial values in students and guiding and monitoring their progress towards entrepreneurial career.
