INDUSTRIAL DESIGN :

Designs Act, 2000 ("the Act"), is a complete code in itself and protection under it is wholly statutory in nature. It protects the visual design of objects that are not purely utilitarian. Section 2(i) of the Act, defines a Design as:

"design" means only the features of shape, configuration, pattern, ornament or composition of lines or colours applied to any article whether in two dimensional or three dimensional or in both forms, by any industrial process or means, whether manual, mechanical or chemical, separate or combined, which in the finished article appeal to and are judged solely by the
