Assistant Professor,

Department of Mechanical Engineering,

Anjuman College Of Engineering & Technology,

This is concerning the result analysis of the subjects **ENERGY CONVERSION-I** for Sixth Semester B.E., Section A, (Mechanical Engineering department) RTM Nagpur University Examination Summer 2018. I am disappointed that the overall performance of the students at the university examination was found to be unsatisfactory for your subject **62.12% (Section A)**. All the faculty members were given several reminders to work on strategies to improve the results. In spite of various measures suggested to the faculty, the result is found to be **UNSATISFACTORY**.

You are directed to put in your best efforts to ensure that the result of your concerned subjects is upto the expectations for the forthcoming University Examination. It may also be informed that the result of your concerned subjects will be put in your personal record and will be reflected in your overall teaching performance. The result analysis of the examination is one of the important parameters to gauge the performance of the faculties and you should take all necessary steps to ensure better performance of your concerned students

**SUB : IMPROVEMENT OF THE RESULTS IN THE FORTHCOMING UNIVERSITY EXAMINATION SUMMER 2016.**

This is concerning the performance of the students of your respective class, in the forthcoming University Examination 2016. In the previous meeting held on the 05/03/16, all the heads of the department were given the liberty and convenience to reshuffle the time table as per the requirement of the subject and the students, and in view of completing the entire syllabus. You should take a thorough follow-up regarding the syllabus completion of all the subjects in your respective class and also take in consideration the requirement of students. The same should be intimated to your respective head of the department to ensure the proper framing of the time table to meet the requirement. The problem areas and the difficulties of the weaker students should be taken care of and the same should be intimated to the various subject teachers under the intimation to the concerned head of the department.

It is expected that you ensure all the necessary and possible steps to ensure better performance of the students of your respective class in the forthcoming University Examination. You should personally motivate and guide the students to be regular to the class and punctual with their studies. Keeping in view of the present admission scenario and status, it should be taken care that the students get through their examinations and are promoted to the next class with decent results. The performance of the students and the promotion to the next semester is also reflected on financial status of the college. We must ensure that there are no drop-outs due to failure in examination.
